AA0001028	150	50 ea.	9.4 oz.

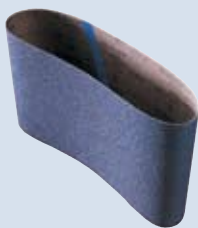

Bona® BLUE Anti-Static

More consistent cut • Less dust on floor • Keeps machine cleaner

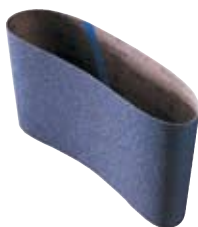

The new Bona BLUE Anti-Static abrasives consist of an innovative combination of grit materials and anti-static properties, designed to give you aggressive performance without sacrificing smoothness, at a tremendous value. The addition of anti-static properties helps prevent dust from clinging to the belt, which keeps your machine cleaner and leads to a more consistent cut and less dust on the floor. When other belts stop cutting, Bona BLUE keeps on working with high efficiency and smooth results. BLUE. Powerful. Smooth. You've never experienced an abrasive like this. New Anti-static available in 24-120 grit.

"We trust no other product like the complete Bona Sport Systems. From floor finishes with unsurpassed durability to improved air quality through the Bona Atomic dustless systems, BonaKemi has the solutions."

Debbie Covlin—
FLR Sanders

Maintenance

“When working on portable floors that will be used hundreds and even thousands of miles from our facility, paint and finish related problems can be frustrating and costly. Since we started using only Bona products on these high profile floors we have had no bonding, drying or other paint and finish related issues. This has been key to our success.”

Mark Frainie —
Design
Manager,
Prater's Inc.

Bona® MicroPlus™ Pro Commercial Floor Mop

Three sizes to match your floor. Bona mops feature heavy duty telescoping poles. Our mop bases are made of extruded aluminum and feature a snap lock connection that ensures the 3-part heavy duty handle will never twist out. The microfiber cleaning pad captures dirt and microparticles and can be used wet or dry.

WM700055021	5 Gallon	1	44

Bona Sport®

GYM FLOOR MAINTENANCE

1. Preventative Maintenance

- Place proper walk-off mats in doorways to keep out dirt and grit.
- Install Bona® Self-Adhesive Felt Pads on tables and chairs used on hardwood floors.
- Avoid excess moisture from tracked in water, leaks, or over-maintenance such as wet mopping.

2. Daily Maintenance

- Dry mop daily with a Bona Commercial Mop and a Microfiber Dusting or Microfiber Cleaning Pad to remove dust, grit, or other abrasive particles. **DO NOT USE ANY DUST MOP TREATMENTS.** Replace or wash Dusting or Cleaning Pads as necessary.
- Damp mop all spills or spots with a Bona Commercial Mop and Microfiber Cleaning Pad dampened with Pacific Sport Clean Concentrate diluted at the 1:8 ratio.

3. Periodic Maintenance

- Dilute 1 part Pacific Sport Clean Concentrate to 8 parts water for a tacking solution. Tack with a Bona Commercial Mop and Microfiber Cleaning Pad. Be sure to rinse or wash Cleaning Pad as necessary. Continued use of a soiled Cleaning Pad will cause streaking.
- **Using a Buffer** — Shoe marks and scuffs can be removed by using a white pad and buffer (150-175 rpm) with a (1:8) solution of Sport Clean. Lightly mist the floor with the solution as you buff. Periodically clean or replace the white pad. Continued use of soiled pads will cause streaking.
- **Using an Autoscrubber** — If you choose to use an autoscrubber with white pads, dilute Pacific Sport Clean to the same 1:8 ratio and ensure machine is properly adjusted to remove all cleaner immediately. No moisture should remain on the floor. Wipe up any remaining moisture with a Bona Commercial Mop and Cleaning Pad. **EXCESS MOISTURE CAN DAMAGE THE WOOD.**
- Make sure all residue from the white pad buffing/cleaning procedure is removed from floor surface; immediately tack the surface with a Bona Commercial Mop and Microfiber Cleaning Pad.
